

There is definitely a right ring for every finger.

The rings in our collections use the European standard ring sizes, ranging from size 44 to 66.
Measure a ring of your own (or one belonging to the intended recipient), or use our print-out chart.

METHOD 1.

1. Print this size guide in actual size on an A4 sheet of paper,
to be sure, measure with a ruler to see if the lines above are 2 cm or 2 inch long.

1. Place a ring that fits you on the circles below to find your correct ring size.

2. Ensure that you measure the inner circumference of your ring.

44	45	46	47	48	49
50	51	52	53	54	55
56	57	58	59	60	61
62	63	64	65	66	

*Refer to our conversion chart on page 2 for more details on size.

METHOD 2.

1. You will need a strip of paper or string, or pen and a ruler that shows millimeters (mm).
2. Wrap the paper or string around your finger, marking the points where it overlaps to form a circle.
3. Measure the length until the marked point.
4. Using a ruler note its length and refer to the below chart to find the right size.
